Technical data TF100

Maximum Flow 50 m³ / h
Dimensions 970 mm x 467 mm x 1103 mm (LxWxH)
Spray pipe 75 mm with 170 holes of 8 mm
Waterfall or with 3 x 110 mm outlet

Material:

PP 8 mm

Specifications:

The Trickle filters (Drip filters) have the best biological filter effect of all known filters for koi ponds.

They increase oxygen and have a very fast conversion of the harmful substances in the pond water.

The trickle filters consist of separate units that you can provide with any desired filter material.

This filter consists of 4 units as standard, placing more units on top of each other is also possible.

Warranty 2 years.
